 sweptawaygreen.com, Twitter: @SweptAwayGreen

**Eco-friendly. Fabulous. Guaranteed.**

Exceptional, efficient and eco-friendly are just some of the words used to describe SweptAway! They are a highly recommended premiere residential/commercial cleaning company using only eco-friendly cleaning products. While they are a fast growing, independently owned company, they haven't deviated from a strong work ethic and still insist on providing a personal touch. It's their nature, it's their business and it's your reward!

Dulcee Stoodley

## Q&A

**What are your most popular products or services?**

Clients love that we are committed to the well-being of the environment—and it won't cost the Earth! Many find our detailed bi-weekly service perfect for their needs.

**What tip would you give women who are starting a business?**

You will be successful when you follow through with your vision, with passion, smarts, hard work and a belief that anything is possible!

**What do you like best about owning a business?**

The energy and feedback that I get from clients and acquaintances regarding SweptAway's meticulous teamwork and our "green cleaning" concept.

**What motivates you on a daily basis?**

The energy from clients who are so thankful to our teams for giving them some peace of mind in a beautifully clean space to reside!

**How do you relax?**

Meditation and exercise every day.

**What do you CRAVE?**

Educating and promoting green cleaning services for a healthy, productive and environmentally responsible atmosphere in which to live and work!
